

AS 50 weed remover

Technical specifications on rear ►

NO NEED FOR CHEMICALS

As weeds are removed by mechanical action only, it is also possible to work in environmentally sensitive areas.

PATENTED PENDULUM-TYPE BRUSH

Surfaces are treated gently thanks to the centrifugally regulated brush pressure.

IDEAL EDGE HANDLING

Borders are cleaned perfectly thanks to the ability to work close to edges, including at edging stones and house walls.

DUAL STONE GUARD

The flexible stone guard stops stones and removed weed residue even when manoeuvring. This technology also ensures extremely quiet operation.

Recommended retail price inc. VAT.
